Hospital Peer Review 2003 Index

Adverse events
- Effective strategies to comply with Joint Commission's universal protocol, NOV:149
- Guidelines can reduce in-hospital deaths, JAN:15
- JCAHO issues alert on nosocomial infections, MAR:32
- JCAHO: Serious nosocomial infections are sentinel events, RCA necessary, FEB:17
- RCA of transplant case reveals lack of redundancy, APR:47
- Reduce infections with root-cause analysis, JUN:86
- Work with infection control staff to study and prevent sentinel events, APR:45

CMS
- Are you complying with CMS' new PI standards? NOV:154
- Comparative performance data now ready for use, DEC:165

Clinical issues
- Diabetes QI program cuts complications by 60%, MAR:34
- Hospital achieves 90% compliance with pathways, APR:48
- QI project cuts patients' chronic pain dramatically, JUL:94
- Stroke care improved with use of clot busters, MAR:43
- Study shows QI helps heart attack patients, JUN:83

Data management
- Comparative performance data now ready for use, DEC:165
- ORYX data to play key role in new JCAHO survey process, JAN:1
- Project hinges on top quality hospital data, MAY:67
- Reader Question: Satisfaction data essential tool in accreditation, JUL:93
- Reader Question: Think how records might be used before discarding, FEB:22

Disasters
- 'Brewing cataclysm' in emergency response? JUN:85
- Credential volunteers during disasters, AUG:108
- Recent power outage puts spotlight on problem areas, OCT:136
- Sample Policy for Credentialing Volunteers, AUG:109
- Tabletop drills not enough for testing disaster plan, JAN:4

Disclosure
- Comparative performance data now ready for use, DEC:165
- Public to get inside scoop on quality of providers, FEB:23
- Will new survey process threaten confidentiality? OCT:145

Emergency management
- 'Brewing cataclysm' in emergency response? JUN:85
- Credential volunteers during disasters, AUG:108
- Recent power outage puts spotlight on problem areas, OCT:136
- Sample Policy for Credentialing Volunteers, AUG:109
- Tabletop drills not enough for testing disaster plan, JAN:4

Hand hygiene
- Track compliance with hand hygiene guidelines, SEP:120

Handwriting
- Foolproof ways to improve physician handwriting, NOV:156

HIPAA
- HHS adopts final security standards under HIPAA, APR:57
- HIPAA prep continues after deadlines pass, MAY:64
- Standards set for HIPAA privacy accreditation, APR:56
- Web site can help coordinate HIPAA efforts, MAY:66

Infection control
- JCAHO issues alert on nosocomial infections, MAR:32
- JCAHO: Serious nosocomial infections are sentinel events, RCA necessary, FEB:17
- Reduce infections with root-cause analysis, JUN:86
- Track compliance with hand hygiene guidelines, SEP:120
- Work with infection control staff to study and prevent sentinel events, APR:45

Joint Commission
- Accreditation Field Report: Tips from a recent JCAHO survey, OCT:137
- Accreditation Field Report: Tips from a recent survey, AUG:112
- Another set of measures to add to your to-do list, SEP:129
- Are you complying with restraint standards? AUG:110
- Are you ready for your first unannounced survey? NOV:152
- Congressman says, 'Make JCAHO a federal contractor', MAR:31
- Do you address staffing effectiveness standards? SEP: 122
- Educating staff on tracer methodology is a must: Survey results depend on it, DEC:161
- Effective strategies to comply with Joint Commission's universal protocol, NOV:149
- JCAHO accreditation open to critical access hospitals, JAN:15
- JCAHO announces upcoming shift to unannounced surveys, MAY:61
- JCAHO's clinical alarm safety goal requires teamwork, collaboration, JUL:89
- JCAHO issues alert on nosocomial infections, MAR:32
- JCAHO, NCQA form human research quality group, MAR:39
- JCAHO revisits patient safety goals: What your facility must do to comply, SEP:117
- NC hospital issues quality report cards, JUN:77
- NCQA, JCAHO to offer business associate certification, MAY:65
- New JCAHO standards are here: What changes do you need to make now? AUG:105
- No more surveyors as consultants after 2003, JAN:3
- ORYX data to play key role in new JCAHO survey process, JAN:1
- Planning more important for unannounced surveys, JUN:76
- Quality control is major theme during survey, DEC:171
- Reader Question: Satisfaction data essential tool in accreditation, JUL:93
- Reader Question: Spiritual assessment required in all settings, APR:55
- Requirements on core performance measures are set to increase, OCT:133
- Research institutions prepare for accreditation, JUL:100
- Strong physician support pays off in recent survey, SEP:128
- Tabletop drills not enough for testing disaster plan, JAN:4
- Unannounced JCAHO surveys mean more planning, not less, JUN:73
- U.S. congressman calls for OIG investigation of Joint Commission, MAR:29
- Use tool to prepare staff for new survey process, DEC:164
- Will new survey process threaten confidentiality? OCT:145

Legal issues
Audio conference clarifies final EMTALA regulations, OCT:148
Congressman says, 'Make JCAHO a federal contractor,' MAR:31
HHS adopts final security standards under HIPAA, APR:57
HIPAA prep continues after deadlines pass, MAY:64
Standards set for HIPAA privacy accreditation, APR:56
U.S. congressman calls for OIG investigation of Joint Commission, MAR:29
Will new survey process threaten confidentiality? OCT:145

Nursing homes
Are nursing home residents safe? OCT:145
HHS launches national nursing home QI, JAN:13

Patient safety
Foolproof ways to improve physician handwriting, NOV:156
Guidelines can reduce in-hospital deaths, JAN:15
JCAHO's clinical alarm safety goal requires teamwork, collaboration, JUL:89
JCAHO issues alert on nosocomial infections, MAR:32
JCAHO revisits patient safety goals: What your facility must do to comply, SEP:117
Meeting top performance levels could save lives, FEB:27
RCA of transplant case reveals lack of redundancy, APR:47
The Quality-Cost Connection: Are nursing home residents safe? OCT:145
The Quality Cost Connection: Don't let impairments jeopardize patient safety, AUG:113
The Quality-Cost Connection: Prevent communication breakdowns, MAR:40
Walking tour could reveal problems with clinical alarms, JUL:91

Patient satisfaction
QI project cuts patients' chronic pain dramatically, JUL:94
The Quality-Cost Connection (Part 1 of 2): Using customer concerns to improve quality, APR:57
The Quality-Cost Connection Part 2 of 2: Responding to customer concerns improves quality, MAY:69
Public to get inside scoop on quality of providers, FEB:23
Reader Question: Satisfaction data essential tool in accreditation, JUL:93

Performance measures
Another set of measures to add to your to-do list, SEP:129
Are you complying with CMS' new PI standards? NOV:154
Comparative performance data now ready for use, DEC:165
Meeting top performance levels could save lives, FEB:27
Requirements on core performance measures are set to increase, OCT:133
Web site is a boon to quality managers, AUG:115

Physician support
Foolproof ways to improve physician handwriting, NOV:156
Strong physician support pays off in recent survey, SEP:128

Quality improvement
AHRQ: Autopsies helpful in improving quality, MAR:42
Diabetes QI program cuts complications by 60%, MAR:34
Foolproof ways to improve physician handwriting, NOV:156
Hospital achieves 90% compliance with pathways, APR:48
Meeting top performance levels could save lives, FEB:27
NCQA, JCAHO to offer business associate certification, MAY:65
New quality trend puts spotlight on success, OCT:143
HHS launches national nursing home QI, JAN:13
Project hinges on top quality hospital data, MAY:67
QI project cuts patients' chronic pain dramatically, JUL:94
Six Sigma boosts quality with ongoing analysis, FEB:19
Six Sigma boosts revenue, reduces outpatient wait time, FEB:21
Stroke care improved with use of clot busters, MAR:43
Study shows QI helps heart attack patients, JUN:83
The Quality-Cost Connection: Before implementing changes . . . simulate! JUL:101
The Quality-Cost Connection: Don't get caught in the activity trap, SEP:130
The Quality-Cost Connection: How's your outpatient 'continuity of care'? FEB:25
The Quality-Cost Connection: Improve performance by taking outsiders' view, JAN:12
The Quality-Cost Connection: Prevent communication breakdowns, MAR:40
The Quality-Cost Connection (Part 1 of 2): Using customer concerns to improve quality, APR:57
The Quality-Cost Connection (Part 2 of 2): Responding to customer concerns improves quality, MAY:69
The Quality-Cost Connection: Review resuscitation and outcomes, NOV:157
VA's surgical QI program could be available to all, JAN:6
Web site is a boon to quality managers, AUG:115

Research
NCQA releases draft standards for research, FEB:24
Research institutions prepare for accreditation, JUL:100

Restraints
Are you complying with restraint standards? AUG:110

Root-cause analysis
JCAHO: Serious nosocomial infections are sentinel events, RCA necessary, FEB:17
RCA of transplant case reveals lack of redundancy, APR:47
The Quality-Cost Connection: Reduce infections with root-cause analysis, JUN:86

Sentinel events
JCAHO: Serious nosocomial infections are sentinel events, RCA necessary, FEB:17
RCA of transplant case reveals lack of redundancy, APR:47
The Quality-Cost Connection: Reduce infections with root-cause analysis, JUN:86
Work with infection control staff to study and prevent sentinel events, APR:45

Shared Visions — New Pathways
Are you ready for your first unannounced survey? NOV:152
Educating staff on tracer methodology is a must: Survey results depend on it, DEC:161
Unannounced JCAHO surveys mean more planning, not less, JUN:73
Use tool to prepare staff for new survey process, DEC:164
Will new survey process threaten confidentiality? OCT:145

Six Sigma
Six Sigma boosts quality with ongoing analysis, FEB:19
Six Sigma boosts revenue, reduces outpatient wait time, FEB:21

Surgery
VA's surgical QI program could be available to all, JAN:6
